

SOLERA INSURANCE LAUNCHES eBrokerHub.com TO PROVIDE TECHNOLOGY SOLUTIONS TO BROKERS

DENVER, CO, November 2, 2009 – Solera Insurance & Financial Services, Inc., an insurance services company based in Denver, Colorado, announced today that it has launched a new website to provide technology solutions to brokers across the US.

<http://www.eBrokerHub.com> was established to provide brokers with technology solutions that enhance business operations, productivity and professionalism. The solutions offered at eBrokerHub.com currently include:

- **Web Meeting Service** – an easy-to-use, affordable online tool that allows the user to communicate more effectively and more easily illustrate materials and collaborate with other people across the street or across the globe.
- **Electronic Fax Service** – an effective communication service that replaces traditional fax lines and allows users to receive faxes via email with a personal toll-free number. Users can receive their faxes even when they are away from the office at a fraction of the cost of a traditional fax line.
- **Business Class VoIP** – eBrokerHub’s Voice-over-Internet-Protocol (VoIP) telephone service bundles a variety of features that are usually only available through expensive business telephone systems into a cost-effective alternative to traditional telephone lines.

“Brokers across the United States have similar technology and communications needs,” stated Peter Kopp, Solera’s President and CEO. “Whether you’re an insurance broker, a real estate broker, or a mortgage broker, you still need to efficiently and concisely communicate with your customers, your suppliers and other key stakeholders. The services provided at eBrokerHub.com are designed to make their businesses more efficient and their operations more productive.”

Solera’s eBrokerHub technology solutions are available nationwide in the US. The affordable solutions are easy to implement and simple to use to enhance business communications. Visit <http://www.eBrokerHub.com> today to learn more.
